

WE WANT TO MAKE GSELL'S THE #1 WHITETAIL
HUNTING FACILITY IN NORTH AMERICA.

Gsell's Whitetails has a long established reputation for quietly raising giant northeastern whitetails from the famous Patrick Breeding Line. Through the years we have improved on the exceptional genetic pool by enhancing our deer herd with the best known practices. Now the time has come to expose the rest of the deer hunting community to the exceptional success that Gsell's Whitetails has already experienced.

As new owners, we have already made numerous improvements. Not only have we upgraded the accommodations and facilities, we have accepted the challenge to make Gsell's the #1 whitetail hunting facility in North America.

What sets Gsell's apart from all others is the number of high quality deer you will see each day. If you look at the Hunting Gallery on our website from the last few years, our massive deer will get your attention: incredible main frames, long tines and lots of mass.

Come join us on a hunt you won't soon forget!

Gsell's Whitetails' objective is to give each hunter and guest the experience of a lifetime. All of our guests leave, not only satisfied, but thrilled with their trophy and their time at Gsell's.

The quality of Gsell's deer herd is better than ever. By the end of November 2016, we had already taken 57 bucks over 200", 29 of which were over 250", 13 were over 300", and four over 400"!
